## John Miller

John Miller—During his thirty-three years as an educator, Dr. Miller has worked for the Kimberly and Twin Falls School District, College of Southern Idaho, and most recently was named as the fourth president of Williston State College in North Dakota. Dr. Miller is known in both Idaho and North Dakota for his advocacy of dual credit opportunities. John has been a friend and colleague of Wiley Dobbs for the entirety of his career in education, working together at various times as building administrators, part of Dr. Dobbs' TFSD leadership team, and finally as fellow administrators in the Region IV Superintendents Organization.

Ever frustrated by his inability to beat Dobbs' superior coaching acumen in the O'Leary vs. Robert Stuart freshman girls volleyball matches, Dr. Miller consoles himself by drinking all of Dobbs' best whiskey and finds solace out fishing him and besting him at golf at every opportunity.

## Patti O'Dell

Ed.D. Educational Leadership Coaching Inc.

Patti retired from education in 2014 after a 25-year career as a teacher, principal, and finally as Associate Superintendent for the Twin Falls School District, where she spent from 2006 to 2014 cleaning up one mess after another made by Wiley. Following her retirement, Patti moved to the mountains of North Georgia where she enjoys hiking in the woods, bird watching, and spending time with her sons and their wives, her five grandchildren, and her dad who recently turned 95. In 2016, Patti was excited to join the Idaho State Department of Education Principal Mentoring Program which allows her to stay involved in education and return to her beloved Idaho several times each year.
